

Delphi; fun and rain for TY students of MCS

On the 11th of November the Transition Year students of Moate Community School went on a trip to Delphi Adventure Centre in Co. Mayo. Upon arrival, and after some nourishing food, the students met their instructors and embarked on three days of group activities including wall climbing, abseiling, archery, surfing and kayaking.

In the evenings activities such as indoor tug of war, sumo wrestling and many more such pursuits were organised. On Thursday night there was a sing-a-long. In fact it is reported that Mr. Tormey and Ms. Halligan both gave superb performances.

On Friday the 13th, the group made their way home feeling content and delighted with both their individual and group achievements. This was a wonderfully successful few days which helped the group to bond and work together. Despite the cold weather and the rain, every minute of the trip was enjoyed by every member of the group. The teachers involved Mr. Tormey, Mr Hatton and Ms Halligan commend the group for the good behaviour and participation.
