

The Horrors of Belsen Concentration Camp are recounted First Hand at MCS

Moate Community School history students stepped back in time, to experience first hand, the horrors of Belsen Concentration Camp of World War II. Zoltan Zinn, a survivor of the dreaded camp, captured the minds and hearts of all present, when he recounted his horrific experiences and ultimate survival of Belsen. Zoltan was liberated at the end of the War at age four and was one of the famous refugee children brought Ireland by Dr. Bob Collis. His eye witness testimony made a deep and lasting impression on everyone here at Moate Community School. We wish him every success with his book the “Final Witness”.
