

Moate Community School Web Page getting a face lift.

Since the launch of the new school website in January 2010 by Ciaran Muloolly we have experienced a great response from parents, teachers and students. However, as with all technology the key is to keep it new and fresh. With minor modifications made during the year last year we have decided to focus on the updating and upgrading of the current school website.

The site is been constantly updated and the news section carries articles on the latest events in the school weekly. Work is ongoing and we look forward to re launching the website in the Spring. Remember its www.moatecs.com.

The screenshot shows the homepage of Pobalscoil Mhóta. At the top left is the school crest and name. A search bar is on the top right. A red navigation bar contains links: Home, Welcome, Staff, Policies, Pastoral Care, Parents Association, News, eportal, and Contact us. Below this are several content blocks: 'Parents' with a photo of two girls, 'School Curriculum' with a photo of a building, 'Student Area' with a photo of a girl, and 'MOATE Business COLLEGE' with a logo. A 'Photo Gallery' section shows a photo of a basketball game. A 'Calendar and Events' section displays a calendar for December 2011. A large photo of a basketball game is on the right. Below the calendar is a 'Click on Images above to view our School Prospectus on Video' link. At the bottom, there are two sections: 'A word from the Principal' featuring a photo of the principal and a message about Christmas examinations, and 'Latest News' with links for 'Click here' and 'Sports Results'.
